- strapi
- html
- css
- material ui
- nextjs
- node.js
- react.js
- jest
- webpack
- eslint
- gulp
- npm
- visual studio code
- angular material
- typescript
- node.js
- material ui
- git
- full stack
- data structures
- full stack
- redux
- babel
- grunt
- tailwind

## Profile Summary

I am a Senior Frontend Developer with over 8 years of experience building fast, scalable, and user-centric web applications using React, JavaScript, and Next.js. Currently playing a lead role, I manage and mentor a team of 5 developers, driving project execution and ensuring high-quality code delivery.

I've successfully delivered complex projects for global clients across the USA, Canada, Europe, and India - including Web3 DApps, CMS platforms (Sitecore/Next.js), and modern UI libraries like Storybook, MUI, and Tailwind CSS.

I specialize in clean code practices, performance optimization, and creating intuitive UI/UX experiences. Open to freelance, remote, and night shift roles - especially those that value ownership, collaboration, and engineering excellence.

### Tech Stack Highlights:

React.js, Next.js, Redux Toolkit, TypeScript, Node.js, GraphQL, Tailwind, Firebase, SQL/NoSQL DBs, Web3, Git, and more.

Let's build something great together.

## Education

B.Tech/B.E., 2017

Manav Rachna International Institute of Research and Studies, Faridabad

12th, 2013

CBSE, English

10th, 2011

CBSE, English

## Social links

<https://gemscoder.com/>

Worked on the OS National Portal for Opendoor, a leading real estate platform in the USA. Developed responsive and interactive user interfaces using React.js and Tailwind CSS, enabling seamless journeys for homeowners, buyers, and sellers. Contributed to building scalable front-end architecture with Next.js and TypeScript, ensuring maintainability and performance. Collaborated with cross-functional teams to deliver a high-quality product tailored to the real estate domain.

**May 2019 - Dec 2022**

Front End Web Developer

**Kellton Tech Solution Limited**

Technologies: HTML, CSS, SCSS, JavaScript, React.js

Worked on CarHP, an online research and sales portal designed for the buying and selling of new and used cars in the USA market. Developed responsive and user-friendly interfaces using HTML, CSS, SCSS, and JavaScript, and built dynamic components with React.js to enhance user experience. Collaborated closely with design and backend teams to ensure smooth integration and optimal performance across devices.

**Aug 2018 - May 2019**

Software Engineer II

**3Pillar**

Technologies: HTML5, CSS3, JavaScript, JSP, Handlebars.js

Worked as a Software Engineer on a news platform for Gannett, delivering both local and national news coverage. Responsible for code reviews, providing system architecture guidance to team members, and ensuring high coding standards. Implemented the UI design from scratch using HTML5, CSS3, JSP, and Handlebars.js, focusing on responsiveness, accessibility, and performance. Contributed to the successful launch and maintenance of the platform through cross-functional collaboration and clean, modular front-end architecture.

**Jan 2017 - Jun 2018**

UI Developer

**NIIT Limited**

Technologies: HTML, CSS, Bootstrap, JavaScript

Involved in understanding project documentation and implementing end-to-end process flows. Responsible for the creation of various application pages and resolving UI-related issues to enhance usability and performance. Developed multiple modules using HTML, CSS, and Bootstrap, ensuring responsive design and consistent user experience across the application.

## Internship

**6 Months**

NAS

**Niit limited**

- Implemented NIIT assessment system to evaluate employee skills and competencies

- Utilized NIIT assessment system for measuring employee performance and identifying training needs
