Projects

15 Months

Jubilant Ingrevia

Jubilant Ingrevia Limited is a leading provider of nutritional solutions for the poultry, dairy, aqua farming, and pet food industries. The company offers veterinary consultation services, products, and solutions for poultry health care, which can be conducted via chat or video.

12 Months

SayDhad

An Arabic learning platform connecting students with certified tutors based on their specific needs. To access classes, students must purchase a subscription plan. Additionally, the platform offers a referral management system, allowing users to earn demo classes through referrals.

4 Months

Baroda Gujarat Gramin Bank

A human resource management system designed to automate and streamline employee record-keeping, reducing manual operations. The system's key features include:

- Monthly salary generation
- Attendance tracking
- Loan application management
- Leave sanction processing
- Rapid search functionality for various categories

By automating these tasks, the system enables efficient and timely management of employee records, freeing up resources for more strategic activities.

2 Months

FICSI

A job portal catering to the Food Processing industry, connecting various stakeholders to facilitate job searches and postings. The platform allows:

- Colleges to register and enable students to search and apply for suitable jobs
- Training Centers to register students and facilitate job searches in Food Processing
- Students to create profiles and apply for suitable jobs in Food Processing
- Industrial Units to register and post-production role requirements
- Manpower Consultants to register and post suitable jobs in Food Processing

The system streamlines the job search and posting process, By providing a centralized platform, making it more efficient and effective for all parties involved.

2 Months

The Institute of Company Secretaries of India

A web-based portal for the Institute of Company Secretaries of India (ICSI) placement and training department, facilitating connections between students, employers, and recruiters. The application enables:

- Students to create profiles, access available training opportunities, and apply for jobs
- Employers and recruiters to post job and training openings, and search for candidate profiles

The system streamlines the job search, training, and recruitment process by providing a centralized platform, making it more efficient and effective for all stakeholders involved.

15 Months

Presence360

Designed and implemented a comprehensive Presence360 HRMS platform featuring modules for Performance Management, Lead Management, Task Management, Ticketing, Leave Management, Payroll, Attendance, Incident Management, Footfall, Visitor Management, Finance, Travel & Expense, and Drive Management System. Successfully integrated these modules to provide a seamless HR experience. Improved HR operational efficiency and enhanced employee experience.

Certification

- Asp.net using C#
