Location: New Delhi, India

Professional Summary

Highly skilled and result-oriented **Full Stack Developer** with **7+ years of experience** in designing, developing, and deploying scalable web applications. Expertise in **Java (Spring Boot)** for backend and **React.js** for frontend development. Adept at collaborating in agile teams, optimizing performance, and building user-centric solutions. Seeking challenging opportunities in a multinational environment to contribute to impactful projects.

Technical Skills

- **Languages:** Java, JavaScript (ES6+), HTML5, CSS3, SQL, JSON
 - **Frontend:** React.js, Redux, Material UI, Bootstrap
 - **Backend:** Java (Spring Boot), RESTful APIs, Hibernate, Microservices
 - **Database:** MySQL, PostgreSQL, MongoDB
 - **Tools & DevOps:** Git, GitHub, Maven, Jenkins, Docker, Postman, JIRA, VS Code, IntelliJ
 - **Testing:** JUnit, Mockito, Selenium (Basic)
 - **Cloud (Basic):** AWS EC2, S3, Lambda (Familiar)
 - **Methodologies:** Agile, Scrum, CI/CD
-

Professional Experience

Full Stack Developer

GsInfotech (OPC) Pvt. Ltd., New Delhi

Feb 24, 2017 – March 20, 2025

- Developed and maintained scalable full stack applications using **Java (Spring Boot)** and **React.js**.
- Designed RESTful APIs and integrated them with frontend interfaces.
- Implemented authentication, authorization, and session management using Spring Security and JWT.
- Optimized backend code for performance and scalability.
- Integrated third-party APIs (payment gateways, SMS, email).
- Worked with both relational (MySQL) and NoSQL (MongoDB) databases.
- Created responsive UI components using Material UI and Bootstrap.
- Participated in Agile Scrum meetings, sprint planning, and retrospectives.
- Mentored junior developers and participated in code reviews.

Key Projects

1. Employee Management System

Built a complete solution to manage employee data, leaves, and payroll. Backend with Spring Boot & MySQL; Frontend with React, Redux, and Material UI.

2. E-Commerce Portal

Developed a fully functional e-commerce website with cart, payment, and order tracking.

Integrated Razorpay payment gateway, managed product inventory.

3. Customer Support Ticketing System

Designed a ticket management app for customer complaints and resolution tracking.

Used Spring Boot REST APIs and React with Redux for real-time updates.

4. Inventory Management Dashboard

Built a dashboard to monitor and control stock levels, with real-time notifications.

Technologies: Spring Boot, React.js, PostgreSQL, Chart.js.

5. Online Learning Platform

Created a platform for hosting video tutorials, assessments, and progress tracking.

Included role-based login, progress analytics, and discussion forums.

6. Hotel Booking System

Implemented a hotel reservation system with calendar availability, payments, and admin panel.

Stack: React.js frontend, Spring Boot backend, MySQL, Razorpay.

Education

PGDCA (Post Graduate Diploma) in Computer Application

[Lovely Professional University], [2018]
