🧩 TOTAL EXPERIENCE

I have more than 5 years of experience.

👤 PROFILE

I have a strong understanding of **Reactjs**, **Nextjs**, **JavaScript**, **TypeScript**, **HTML** and **CSS**. I am skilled in using libraries such as **Axios**, **Redux**, **Redux Toolkit**, **React Router**, **Bootstrap**, **Chakra UI** and **Material UI**. Additionally, I have experience with server-side technologies like **NestJS**, **NodeJs** and **ExpressJs**.

In my previous roles, I contributed to building complex web applications, handling everything from requirements gathering to deployment. I focus on creating software that is both functional and visually appealing, always aiming to deliver the best user experience.

📁 WORK EXPERIENCE

Crownstack Technologies Pvt Ltd

Sr Reactjs Developer

08/2023 – present | Noida, Uttar Pradesh

- Independently manage frontend development and collaborate with ML and backend teams.
- Develop Chrome extensions using React and Material UI for UI/UX
- CLI (command line interface) tool for production build versioning and automated notification.
- Testing Chrome extensions with Playwright, React components, Jest, and React Testing Library.
- Use Esbuild to bundle TypeScript files into a single file and manage separate modules for Chrome extensions.
- Developed data scraping methods, push notifications, and DOM insertion techniques.
- Contributed to an AI-powered application
- Contribute to open source projects managed by Crownstack.

Webmob Software Solutions Pvt Ltd

Sr ReactJs developer

06/2022 – 05/2023 | Mohali, Punjab

- Senior React Engineer in a large team (16-20 members).
- Implemented websocket for real-time deal proposal communication.
- Built with React, utilizing Material UI, Redux, and Redux RTK for caching.
- Develop a social platform with integrated crypto transactions and user chat, incorporating seamless onboarding and third-party crypto payment processing.
- Develop a dynamic portfolio website using Gatsby and Contentful for manageable content and meta tags.

Dev Story

Mern Developer

01/2020 – 06/2022 | Chandigarh, India

- Built websites from scratch using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Worked closely with clients to understand their requirements and delivered exactly what they needed.
- Led small teams to complete projects on time and with good quality.
- Created e-commerce websites where users could buy and sell products easily.
- Built tutorial and learning websites to help users gain knowledge online.
- Developed event management websites to allow users to book and manage events.
